

KEEP OUT OF REACH OF CHILDREN

biostart[®]

SilageKing contains extracts from the fermentation of beneficial bacteria with a unique dual mode of action. SilageKing helps inhibit the microbes responsible for decomposition and spoilage, and helps activate the beneficial ensiling bacteria to reproduce. SilageKing aids in promoting fermentation of grass silage to help preserve feed quality and palatability.

Directions for use: Standard round bale: 90 mL/bale
Pit silage: 150 mL/wet tonne.

Apply SilageKing at harvest. BioStart recommends the use of a BioStart applicator. Clean the applicator system to remove any product residues prior to use. To maximise SilageKing's efficacy it should always be used in conjunction with good silage making practices see www.biostart.co.nz/silageking. Certain factors e.g. moisture, compaction, sealing, and soil, fertiliser or effluent contamination, may impact SilageKing's efficacy and/or feed quality.

This pack will treat: Standard round bales: 222
Pit silage: 133 wet tonnes

Handling precautions: When mixing or applying, avoid contact with skin and eyes. Wear protective clothing, gloves and goggles. Flush applicator thoroughly with water after use. Do not eat or drink while using. Wash hands and face before meals and after work. Wash protective clothing after use.

Product storage: SilageKing contains fermentation extracts. Store out of direct sunlight and below 30°C, otherwise product efficacy may be affected.

Disclaimer: As Biostart Ltd and Biostart Brands Pty Ltd has no control over use, handling and storage of this product, no express or implied representations or warranty (other than non excludable warranties) are made. It is the buyer or user's responsibility to store, handle and use the product in accordance with our label instructions and in conjunction with good silage making practices see www.biostart.co.nz/silageking.

SilageKing[™]

Forage Preservative

Aids inhibition of decomposition microbes

Aids activation of ensiling microbes

Store out of direct sunlight
and below 30°C
