ThatchBusta™

THATCH DECOMPOSER

Reduces Browntop Thatch
Promotes clover growth
Break down thatch in turf & lawns

Store out of
direct sunlight
and below 30°C

1 L net
contents

Made in New Zealand

Mixing Instructions: Half fill the spray tank with water and while mixing slowly add the required amount of ThatchBusta™ then top up with water. **Application:** For best results graze out paddocks & allow sward to freshen prior to application. Apply ThatchBusta in the early morning, late afternoon or in overcast conditions. Calibrate and clean sprayer before use. **Compatibility:** Compatible with commonly used herbicides and nutritional sprays. **Handling precautions:** When mixing or applying, avoid contact with skin and eyes. Wear protective clothing, gloves and goggles. Flush spray equipment thoroughly with water after use. Do not eat or drink while using. Wash protective clothing after use.

INVERT CONTAINER AND SHAKE WELL BEFORE USE

ThatchBusta™ contains a blend of fermentation extracts and nutrients that activate beneficial microbes to convert thatch into humus and promote clover growth. ThatchBusta helps improve soil aggregation, soil moisture holding capacity and nutrient mineralisation. ThatchBusta promotes clover germination and root penetration, for increased clover content in your pasture and improved pasture quality.

DIRECTIONS FOR USE

Reduce Thatch & Promote clover growth	Timing	Application Rate	Comments
Land preparation for cropping - prior to direct drilling or cultivation	Autumn	3 L/ha	Ground spray 6 months prior to spring sowing. Minimum water rate is 200 L/ha.
Improve pasture - reduce thatch and release clover	Spring Soil temperature 10°C and rising	3 L/ha	Aerial spray: Mix with glyphosate 360 at 200 – 500 mL/ha. Call 0800 116 229 for advice on rate. Minimum water rate is 40 L/ha. Paddocks will yellow for approximately 4 weeks.
Commercial Turf	Spring or Autumn	5 L/ha	Ground spray 5 L/ha in 200 L water
Domestic Lawns	Spring or Autumn	5 L/ha	Ground spray Mix 50 mL in 5 L water and apply to 100 m ²

Storage instructions: Store below 30°C and keep out of direct sunlight. Keep out of reach of children. Keep container tightly closed. Do not store diluted product.

Empty container disposal: Triple rinse and return to an approved recycling centre.
