## ENZYME FEED ADDITIVE

a healthy rumen in conjunction with good management practices will lead to healthier animals and help improve digestive efficiency, nutrient conversion and animal production.

**BioStart LactoPlus** is a digestive enhancer for dairy cows to aid digestive efficiency and animal well-being especially through periods of stress such as feed changes, mating, calving and environmental stress. **LactoPlus** contains the non-viable ferment of specially-selected beneficial bacteria, prebiotics, vitamins, minerals and trace elements. Promoting

### Active ingredient:

A concentrated blend of non-viable extracts from the fermentation of:  
*Lactobacillus acidophilus*,  
*Bifidobacterium animalis*,  
*Streptococcus thermophilus*,  
*Lactobacillus casei*,  
*Enterococcus faecium*,  
*Propionibacterium freudenreichii*.

### DIRECTIONS FOR USE

**In-Calf Cows:** One dose of 20 mL/head 1-2 weeks prior to calving.

**Lactating Cows:** 15 mL/head once a week. It is recommended that LactoPlus is given as a weekly dose. LactoPlus can be applied through the trough dispenser, co-administered with other oral supplements via drenching or sprayed weekly over supplementary feed.

**Withholding Period:** Nil withholding.

**Storage Instructions:** Store below 35°C. Keep out of reach of children. Keep container tightly closed. Do not store diluted product.

**Empty container disposal:** Triple rinse and return to approved recycling centre.

### Ingredients (% per ltr):

Nonviable fermentation extract	86.25%
Prebiotic oligosaccharides	4.25%
Plant extracts	4.44%
Manganese Sulphate	0.03%
Cobalt Sulphate	0.004%
Potassium Iodate	0.03%
Zinc Sulphate	0.63%
Ascorbic Acid	0.01%
Biotin	0.04%
Folic Acid	0.01%
Vitamin A	260,000 IU/L
Vitamin D	26,000 IU/L
Vitamin E	104 IU/L
