# SilageKing<sup>TM</sup> HV

Forage Preservative High Volume

FOR HIGH VOLUME APPLICATION ONLY

For more information call:  
New Zealand: 0800 274 524  
Australia: 1800 359 559

Empty container disposal:  
Triple-rinse and return to an  
approved recycling centre.

**Aids inhibition of decomposition microbes**

**Aids activation of ensiling microbes**

SilageKing HV contains extracts from the fermentation of beneficial bacteria with a unique dual mode of action. SilageKing HV helps inhibit the microbes responsible for decomposition and spoilage, and helps activate the beneficial ensiling bacteria to reproduce. SilageKing HV aids in promoting fermentation of grass silage to help preserve feed quality and palatability.

Made in New Zealand

net contents **1000 L**

Directions for use: Standard round bale: 90 mL/bale Pit silage: 350 mL/wet tonne.

Apply SilageKing HV at harvest. BioStart recommends the use of a BioStart applicator. Clean the applicator system to remove any product residues prior to use. To maximise SilageKing HV's efficacy it should always be used in conjunction with good silage making practices see [www.biostart.co.nz/silageking](http://www.biostart.co.nz/silageking). Certain factors e.g. moisture, compaction, sealing, and soil, fertiliser or effluent contamination, may impact SilageKing HV's efficacy and/or feed quality.

This pack will treat: Pit silage: 2,857 wet tonnes

Handling precautions: When mixing or applying, avoid contact with skin and eyes. Wear protective clothing, gloves and goggles. Flush applicator thoroughly with water after use. Do not eat or drink while using. Wash hands and face before meals and after work. Wash protective clothing after use. Product storage: SilageKing HV contains fermentation extracts. Store out of direct sunlight and below 30°C, otherwise product efficacy may be affected.

Disclaimer: As Biostart Ltd and Biostart Brands Pty Ltd has no control over use, handling and storage of this product, no express or implied representations or warranty (other than non excludable warranties) are made. It is the buyer or user's responsibility to store, handle and use the product in accordance with our label instructions and in conjunction with good silage making practices see [www.biostart.co.nz/silageking](http://www.biostart.co.nz/silageking).

Store out of direct sunlight and below 30°C
